

INTERACTIVE GLASS

by Interactive Display Systems

Increase Productivity & Cut Costs

Interactive glass is a revolutionary way to add touch control to any window, monitor or TV in your workflow.

Do your workers wear PPE while working? What if they could enter data on the computer with their gloves on? Would that improve productivity & cut waste?

Want to streamline workflow? Add an interactive screen to your clean room? What about in first responder vehicles? Imagine touch capabilities for the OR suite.

Our interactive glass technology can do all this and much more!

Transforming All Industries

Medical & Healthcare

Industrial & Manufacturing

Additional Benefits

- » Convert ANY Glass Surface (windows, doors, countertops, etc.)
- » Interact While Wearing PPE
- » Display Multiple Types of Content Simultaneously - CLOUD SCREEN™ software
- » Easy to Clean & Disinfect
- » Lower Ownership Cost vs. Traditional Touchscreens

Raising the bar with innovative software & solutions that will give you a competitive edge.
